Trusted by Top Enterprises Worldwide

> Cost It Right has streamlined our cost estimation process. We employed about 6 people to carryout 150-175 estimations daily. By digitizing this process, we've significantly reduced the need for manual data entry and minimized the risk of duplicity. It has brought substantial time savings and efficiency gains. We intend to build a data analytics layer on top of this data for improved insights.

> Cost It Right has digitalized the cost cards that have greatly benefited our organization, bringing standardization, centralization, and invaluable visibility. Automating costing and digitizing cost cards saves us 7000 man-hours annually, driving exceptional efficiency and financial gains, surpassing expectations.

A costing landscape which is:

- Fast
- Accurate
- Foolproof
- Not dependent on manual Intervention

Total Order 120

Total $15,000

Client: Large Component Manufacturer

Sourcing Accuracy

Method: Traditional & Legacy System

Unable to find disparities in RM costs across 72 manufacturing plants

Micro level costing was not possible

Considerable time wasted in crucial cost insights

No system for real time alerts

Manual approval process

Method: Cost It Right

No chance for cost disparity with centralized data

Cost reduced through micro level costing

All costing insights within the system

Real-time alerts for every update

Automated approval process

Challenge Addressed

It was found that there was a hidden cost disparity across its plants for the same RM from the same supplier.
This costed the client crores overtime.

Client: OEM Manufacturer

ERP Collaboration

✗ **Method:** Legacy System

✗ Despite using ERP & PLM, an OEM manufacturer used spreadsheets to prepare critical cost reports & feed this sensitive data one by one into the ERP.

✗ **Method:** Cost It Right

✗ With Cost It Right's integration with ERP, they function in an end-to-end automated costing landscape

Challenges

⊗ Unorganized & unstructured data causing delays

⊗ No detailed cost breakdown causing cost leaks

⊗ Errors in manual approvals causing losses

⊗ Manual RFQ process causing unreasonable supplier costs

⊗ Actionable reports creation taking significant time

⊗ Errors in manual price updates in ERP

⊗ Data & knowledge loss due to employee attrition

Problem

Solution

Our Solution

⊗ Organized and structured data saves time & enables efficient decision making

⊗ Digital cost cards prevents cost leaks & provides transparency

⊗ No such loss with digitized workflows for approvals highlighting the deviations

⊗ System-driven & transparent RFQ process making negotiations more insightful than ever

⊗ Actionable reports readily available

⊗ Automated data update through ERP integration

⊗ No such loss due to 100% centralized and digitalized costing data
